Vol. XVIII.]

TUESDAY, JANUARY 27, 1818.

[No. 5184.]

For the prevention and cure of
BILIOUS AND MALIGNANT FEVERS
is recommended
Hahn's ANTI-BILIOUS PILLS
THIS Medicine has been attended
with a degree of success highly gratifying
to the inventor's feelings in several parts
of the West Indies and in the Southern
and Middle States, &c.

The testimony of a number of persons
can be adduced, who have reason to be-
lieve that a timely use of this salutary re-
medy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
more in favour of a medicine than col-
umns of pompous eulogy founded on
mere assertion.

It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
once in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
estimated desperate and beyond the power
of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.

They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance: they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

Hamilton's Elixir,
A sovereign remedy for colds, obsti-
nate coughs, asthmas, sore throats, cat-
arhs, and approaching consumptions.—
To parents who have children afflicted
with the **HOOPING COUGH**, this dis-
covery is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.

Hamilton's Grand Restorative,
Is recommended as an invaluable me-
dicine for the speedy relief and perman-
ent cure of
Nervous Disorders Violent cramps in
Consumptions the stomach and
Lowness of spirits back
Loss of appetite Indigestion
Impurity of blood Melancholy
Hysterical affection Gout in the stomach
Inward weaknesses Pains in the limbs
and debility Relaxations, etc.

**Hamilton's Essence and Extract of
Mustard.**
A safe and effectual remedy for acute
and chronic rheumatism, gout, rheumatic
gout, palsy, lumbago, numbness, white
swellings, chilblains, sprains, bruises, pain
in the face and neck, &c. etc.

Lee's Gintment for the Itch.
Warranted an infallible remedy at one
application, may be used with perfect
safety by pregnant women, or on infants
a week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with that
tormenting smart which attends the ap-
plication of other remedies.

**Hahn's true & Genuine German Corn
Plaster.**
An infallible remedy for corns, speedily
removing them root and branch, with-
out giving any pain.

The Genuine Persian Lotion,
So celebrated among the fashionable
throughout Europe, is an invaluable cos-
metic, perfectly innocent and safe, free
from corrosive and repellent minerals,
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimples,
inflammatory redness, scurfs, tetters, ring-
worms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,
A sovereign remedy for all diseases of
the eyes, whether the effect of nature
weakness or of accident.

Tooth Ache Drops.
The only remedy yet discovered which
gives immediate and lasting relief in the
most severe instances.

Lee's Infallible Ague and Fever Drops
For the cure of agues, remittent and
intermittent fevers.

At the place of sale pamphlets
may be had gratis, describing cures per-
formed by the above medicines; the num-
ber, importance and respectability of
which, fully justify every article of this
advertisement.

AMERICAN EDITION OF
DR. REE'S NEW CYCLOPEDIA.
The publishers beg leave to inform
their subscribers, that vol. XXXVII, part
II, (being the 74th number) is now ready
for delivery.
When the undersigned became proprie-
tors of this work, it appeared to be the
general and anxious wish of the subscri-
bers, to have it completed with all possi-
ble expedition; and every exertion has
been made by the publishers to meet those
wishes. In the space of two years they
have published twenty-five half volumes
or parts, amounting to which (exclusive of
a volume of plates) have been published
in the course of the last year—a rapidity
of execution which they believe has never
been exceeded in any country. It
has ever been the sincere desire of the
publishers to fulfil their engagements to
the subscribers to this great work with
punctuality; and they have reason there-
fore to expect, on the part of the subscri-
bers, a corresponding punctuality.
The American publishers have now
printed this work as far as they have re-
ceived the London copy; and as soon
as they receive the few remaining num-
bers, which they have reason to believe
will not exceed four, the American edi-
tion will be finished with all possible dis-
patch.

This work already contains upwards
of eight hundred Engravings; and, when
completed, will probably (with the extra
volumes of Plates) amount to one thou-
sand. These plates will comprehend
as they believe, upwards of five thousand
different subjects, in all the various de-
partments of the Arts and Sciences. The
engravings of the Portraits of distinguished
American characters, promised to be
given in the work, are nearly completed,
and will be ready (with two volumes of
extra plates) with the last number.
Those subscribers, who have not yet
taken up their volumes, are once more
notified, that two hundred and fifty cop-
ies less of each of the last twenty-five
numbers have been printed than of the
preceding forty-nine; and that, owing
to this arrangement, which was rendered
necessary by the neglect of distant sub-
scribers to take up their books, and other
uncontrollable circumstances, there must
inevitably be upwards of two hundred
and fifty sets left incomplete at the close
of the publication. Those who, through
neglect or improper delay, may hereafter
find their application for the completion
of their sets too late, will have no reason-
able cause of complaint against any one
but themselves, as all the subscribers
were individually advised at the edition
being reduced, more than two years ago.

ALEXANDRIA GAZETTE AND DAILY ADVERTISER.

PUBLISHED BY SAMUEL SNOWDEN, ROYAL STREET.

Daily Gazette 57. Country Gazette 25.

TUESDAY, JANUARY 27, 1814.

A paper printed at Brookville, Indiana, Dec. 10, gives the following statement of prices of produce and merchandise: Best lb. 4 3/4 cts; middling lb. 25 cts; corn bushel 25 cts; wheat 42 cts; fowls per dozen 21; eggs do. 61 cts; sugar lb. 25 cts; whiskey gal. 75 cts; Pork lb. 3 1/4 cts; butter 19 cts; Flour 100 lbs. 250 cts.

The London paper mention that a 4th cable of *Childe Harold*, by Lord Byron, had been received from the continent for publication.

The daily consumption of coals in London for producing Gas, amounts to twenty-eight chaldrons, by which 76,000 lights are supplied, each equal to the light of 6 candles.

From the Richmond Enquirer, Jan. 24. HOUSE OF DELEGATES.

We have devoted this paper almost wholly to the proceedings of the legislature. The details of yesterday's proceedings in the House of Delegates and the report on the western communication will bring our register down to this day. This report will appear in our next.

The *Report* is suspended, at least for a time, most probably altogether. On Thursday Mr. Magill moved to lay the revised bill on the table, until the House could ascertain what course the Senate meant definitely to pursue.—Carried.

Yesterday, on motion of Mr. Scott, the committee of privileges and elections were instructed to enquire into the expediency of designating by law the privileges of the legislature, as well as of defining what is a contempt, and prescribing a punishment for the same.

The house took up the report on the Amherst free bridge, and finally adopted Mr. Taylor's resolution giving Mr. Mitchell and others leave to build it.

The following report was then called up by Mr. Burton:

Whereas, great numbers of the inhabitants of this commonwealth must frequently, and at necessity, resort to the seat of government, where the general assemblies are convened, superior courts are held, and the governor and council usually transact the executive business of the government of the commonwealth of Virginia; and the equal rights of all the said inhabitants require that such seat of government should be as nearly central to the territorial limits as practicable, having a due regard to the population of each section of the state, and the healthfulness of the most central part.—And, it has been also found inconvenient, during the late, and revolutionary war, for the seat of government to be exposed to the attacks and injuries of the public enemy, which dangers may be avoided by removing the seat of government to a more central part of the commonwealth. And whereas, from the wealth and commerce of the present seat of government, expenses have accrued to such an alarming degree that the salaries of our public officers have become quite inadequate to their support and maintenance in the city of Richmond; but your committee do humbly conceive that they would be quite adequate in a central part of the commonwealth; and your committee are further informed and believe, that it will not be a pecuniary inconvenience to the good people of this commonwealth to remove the seat of government, as all the public property in the city of Richmond will sell for a price sufficient to defray any expenses that may arise in erecting better public buildings in any other part of the state.

Resolved, therefore, as the opinion of your committee, that it is expedient to remove the seat of government from the city of Richmond.

Mr. Blackburn offered the following by way of substitute:

The committee directed to enquire into the expediency or inexpediency of removing the seat of government, and authorized to report by bill or otherwise, have had that subject under consideration, and respectfully submit the following statement and resolution:

That in the opinion of your committee, a government confessedly founded on equal rights, and deriving all authority from the people, ought to extend equal benefits and privileges to every citizen, (denying exclusive privileges to all) with the means of enjoying and defending life and liberty, and of acquiring and protecting reputation and property; and generally, of attaining objects suitable to their condition, if it be accomplished without injury to others.

That the citizens of Virginia, although scattered over an extensive territory, are yet bound by the laws and interested in the decisions of our courts of superior jurisdiction, or last resort, on which life, liberty, and reputation of each individual may ultimately depend. That every person being represented in the legislature must appear once a year at the seat

of government by his representative; and that there are few, however remote their situation, who are not personally acquainted with their character, whose personal concerns will not render the presence necessary at the seat of government frequently in the course of his life; and hence we infer the necessity of a central position.

The commonwealth appears to have been laid off by nature into four grand divisions; the 1st extending from the seaboard westwardly to an ideal line, or the great post road if you please, crossing it or near the head of the water; the 2d consists of that wealthy and populous country lying between the road aforesaid and the Blue Ridge; the 3d comprehends that tract of country lying between the Blue Ridge and the Alleghany Mountains, rich in soil, cultivation, health and population; the fourth embraces all the territory belonging to Virginia, lying between the Alleghany Mountains and the river Ohio, much of it mountainous, and rugged to be sure, but that is abundantly compensated by the extensive range in the mountains, (for the inhabitants are graziers) the uncommon fertility of the soil, exhaustless salines shaded by mountains of coal, a more genial climate than falls to the lot of the middle regions of Virginia, a perpetual influx of new inhabitants, and to crown the whole, the entire western boundary washed by the most beautiful, (and to its size) the most safe and navigable river in the world.

Your committee state these sections of country, bounded as aforesaid, extend the whole length of the state of Virginia, running any from north to south. Nor can they conceal their surprise and regret, that on looking for Richmond, the seat of government for this extensive territory, one is at length discovered standing on some gravelly points overlooking an immense shoal on James River, a little above tide water on the very margin of the first mentioned division, within sixty five or seventy miles of the state of Maryland, and about 125 or 130 of North Carolina—that from Richmond to the extreme part of Wood county, is four hundred and fifty miles—that from Richmond to the extreme boundary of Mason on the Ohio river by Point Pleasant, (the only practicable route,) is four hundred and thirty miles—to the extreme point of Brooke county on the north west of Virginia is four hundred and thirty— and from Richmond to the furthest point of Lee county, our south western boundary, is four hundred and forty miles—those distances have been ascertained with the greatest certainty in the reach of your committee, generally from the mileage claimed by the delegation from the respective counties.

Your committee, from unhappy experience, are induced to believe that the city of Richmond is too much exposed to invasion from foreign, and unfortunately too remote from domestic enemies, to offer sufficient pledges for the security of the capital, the treasury, the archives of state, the public property, or the safety of our great establishments, the armory and penitentiary; and that by a removal of such of these as could be removed into the interior, and a prudent disposition of those which could not, and the erection of others in a place of safety, Richmond would present fewer incentives to foreign ambition, and less prospect of success to internal insurrection; and our fellow citizens there, and in the vicinities be left in the more secure enjoyment of that wealth and those advantages which their fortunate situation and an indulgent providence hath lavished on them.

Your committee further state as their opinion, that the great banking and commercial establishments at Richmond, her unexampled prosperity and increase of wealth, improvements and population; her hospitalities, amusements, and perpetual excitement to pleasure, are at least unfriendly to cool, unbiased and dignified legislation.

And lastly, they owe it to themselves, to this house, and their country to state, that a further perseverance in denying to our Western brethren an equal participation in the rights and privileges of our common government, the happy result of our mutual efforts, would be a violation of justice so palpable, a prostration of equal right and privilege to entire as would justify jeopardizing the integrity of the state; for your committee cannot for a moment believe, that men who have bled in our struggle for political existence, who understand their rights, and appreciate their value, will long consent to bear the hardships and deprivations under which they stagger, and wish now to redress, much less will they entail them on posterity.

Resolved therefore, as the opinion of this committee, that the seat of government ought to be removed from the City of Richmond to some point west of the Blue Ridge, which shall unite as near as possible the centre of population and territory, having due regard to the certain increase of population to the west, and that a special committee be appointed, whose duty it shall be forthwith to report a bill defining the time when the place to, and the conditions on which this removal shall take place.

The substitute being read, Mr. Miller of Powhatan expressed with much feeling his objection to certain expressions used in it—he deprecated in the strongest terms the idea of voting under any threat—such as the substitute threw out—of dividing the state unless the seat of go-

vernment was removed. Mr. Blackburn, disclaiming any such intention—he expressed the strongest attachment to Virginia, in which he was proud to belong—the strongest anxiety for her union and indivisibility—he said his eastern brethren must not drive us (the people of the west) too far—they must not goad them too much—for if they continued to deny them their just rights, they would throw themselves into the arms of our sister states—though nothing but the most desperate endeavor would make him consent to belong to another government.

Mr. Smith to get rid of the whole subject at once, moved to postpone it to the 31st of March. Mr. Garth seconded this proposition, on account of the excitement now produced.

This motion gave rise to a long and animated debate.—Mr. Blackburn, against it.—Messrs. Scott, Chamberlayne, and Robertson (of R.) for it. We have no time or room for a sketch of the argument.—Mr. Blackburn, at some length, dwelt upon the arguments of his substitute.—The other side contended, that a removal was not called for by the people—there was not a single petition for it—they dwelt upon the expense of a removal, contending that the moment the public property here lost its public use, being principally condemned ground, it would revert to its former proprietors—that it was as near to the centre of population as could be present conveniently designated; that if it was somewhat nearer to the eastern frontier, it would enable the executive the better to repel the attack of an enemy upon a post most exposed to his attacks—they denied the undue influence said to be exercised by Richmond over the legislature, which they contended would be a reproach to the members of the legislature itself.

Mr. Blackburn combated these positions and also pointed to similar removals in other states, as from New-York to Albany, from Philadelphia to Harrisburg, Charleston to Columbia, Savannah to Milledgeville, Lexington to Frankfort, to prove that the seat of government had retired from towns, where wealth and luxury had grown up, as well as to more central points. The ball of controversy was kept up till a late hour; when the question of indefinite postponement was carried—ayes 95, noes 68.

Extract of a letter dated Liverpool, 6th December.

The import of cotton into the kingdom in November, was 35,271 bags, consisting of 3988 bags from the U. States; 9665 Bengala, direct; 1430 ditto from Rotterdam; 1497 Sarats; 16,212 Braxila, and 2442 other sorts.

The year's supply therefore will exceed what was expected when we wrote our circular of the 7th ult. by the whole import of December, but what that may be we have not any means of judging, though it is expected that it will be very considerable. The export in November was only 1000 bags. The dealers and spinners refrained from buying, except in small quantities, till they could not stay out of the market any longer, and sent out the 31st and 30th ult. 25,000 bags were sold in the three markets.—The effect of this system was to reduce the prices of all sorts of cotton, except sea-islands, 1 1/2 to 2d per lb. and had

they kept out of the market till after the India sales of 11,000 bales on the 28th ult. there was every prospect of a further decline, which plainly avenges the very exhausted state of their stocks at that period—we think it is a long time since they were so much reduced. Since the revival of the demand, uplands of ordinary and middling qualities have advanced 5-6d per lb. It is a very striking circumstance that between the 19th Sept. and the 1st Dec. only 1850 bales of Orleans were sold here, and between the 15th Oct. and 31st Nov. only 1840 uplands, though we compute the consumption of Orleans was 3000 bales, and of uplands 12,000 in these periods. In general there is not much business done in December, but it is probable this month will form an exception, or at least there will be a good business done in it. The India sales in London on the 28th ult. although for ordinary and middling qualities lower than the previous sales made here, were considered as favorable ones, and they have assisted in strengthening the market—the demand this week has been good, and the market is steady and looks favorably. The sales amount to 7080 bags, the imports to 2908. There was a public sale of sea-islands yesterday, which went off at 2s 4d to 2s 7d for ordinary to good, and a few ordinary uplands were sold at 17 1/4 per lb.

Rice will continue to be admitted free of duty till the 5th of April next. Very little business was done last month in Carolina rice, of which the stock is small, but the prices have been gradually advancing. Of East India Rice there have been some considerable sales by auction. Patna and Java fetched 2s a 30s 6d, and Bengal 2s 6d a 27s—good Brazil is worth 32 a 34s. Though rice is scarce, both on the continent and in this country, we cannot expect the present high prices will be maintained when the new rice, of which the American crops are stated to be very abundant, comes freely forward, especially as the continental ports to the north of Flanders will, as usual, probably close during some of the winter months.

We can say nothing particular about wheat and flour in addition to our circular of the 23d ult. since the closing of the ports there has been very little doing in this market, and the prices are almost nominal. Nearly all the sweet flour is in the hands of one house on London account, with orders not to sell. The two last weekly averages for wheat were 85s 1d a 84s 7d per quarter. At this day's corn market very little business has been done, and prices are nominal.

Potatoes advanced 2 a 3d per cwt. in the course of last month, in consequence of an expectation that the supplies from Canada would fall materially short of previous calculations. There is still a good enquiry for them, but the trade is not willing to give the advance required. Of the present stock about 200 barrels are pears, which is rather considerable, and therefore though they are in a fair demand, the prices have declined 1 and 2s per cwt.

In consequence of the high prices of oils, flaxseed for crushing continues to be scarce, and by the time you receive this, it will be about the middle of the shipping season for sowing, by which time you will, we presume, be able to form a tolerable accurate estimate of the quantity that will be shipped. About 52,000 hds in the fair average quantity down in Ireland, and the prices will, we expect, be high or low in proportion as the supply from the U. States falls short or exceeds that quantity, except that we think that more than the usual quantity will be sown this year, in consequence of the scarcity and high prices of flax, & that the crushers will continue to require considerable supplies till after the sowing season. We think therefore, that there is a favorable prospect for this article, unless supplies from the U. States prove unusually large. During the last 20 years the average price of flaxseed in years of fair average supply and unrestricted trade, may be stated to have been from 5l. 18s. to 5l. 13s. Irish per hhd. in years of short supply it has been 7l. 10s. and of over supply it has been declined to 3l. 10s. This is exclusive of embargoes, non-intercourse and war, when the prices have ruled from 7l. to 15l.

The stock of tobacco here on the 1st instant was 4533 hds.—on the 1st Jan. last it was 4900. In London the stock on the 1st inst. was 3878 hds; so that here the supply has not been quite equal to the demand, and in London considerably less. Four vessels with tobacco are shortly expected here, and two in London. The quantity remaining in Virginia by the last accounts was but limited. We have letters from Gibraltar of the 10th ult. which mentions a decline in that market; Kentucky had been selling there at 14 and 14 1/2 dollars; but in consequence of an arrival of 200 hds. had fallen to 12 dollars. We have been throughout the year of opinion that the prices would be nearly maintained or nearly recovered in the event of a decline, if the export from America of the crop of 1816 did not exceed 50,000 hds.; and the recent advance of 2 to 1d per lb. the improved and improving state of the demand, the diminution of the stock in this country and on the continent, and the limited supply still expected from America till the crop of this year comes forward, strengthen that expectation. If the prices and supply were always in the same proportion when the demand was not perceptibly different, the prices at

present would be much higher. On the 1st March, 1816, the stock in London and Liverpool was 15,500 hds.—it is now only 10,404, in the former period Virginia was worth 7d to 15d, now only 5d to 9d per lb. Kentucky do. 9d to 10d, now only 4 1/2 to 7d do.

Thus, though the stock is 33 per cent. less at present, the prices of good qualities are 35 per cent. lower than at the former period. The result is to weaken our confidence in anticipations founded upon apparent similarity of circumstances—not that similar causes will not always be attended with similar effects, but that unperceived differences exist to vary the results. Perhaps this difference may be accounted for from the tendency of markets; which peculiar circumstances have been raised to an annual height to fall to the level from which they advanced before they adapt themselves to the actual state of things. This tendency, which originates in the fears of both sellers and buyers, commonly meets with no adequate check till the perception of actual scarcity. There are not any Maryland here, and only 109 hds. in London. The principal sales for home use last month were of stems, which are scarce, and those for shipment were for the Irish market.

The import of quercitron bark this year amounts to 3500 hds, but the demand has been very limited. The stock is almost entirely in the hands of speculators, and the prices are steady.

The import of turpentine this year exceeds the last year's for the same period 5600 barrels; but the stock is moderate, and the prices are steady—last year at this time the prices were 3s higher, and we know of no reason for such a difference. Tar is dull, but the prices are steady, and the stock is considerably reduced. Staves are steady.

We remain, very respectfully, your obedient servants.

London, Tuesday, Dec. 2.

Cotton.—The sale at the India House attracted great attention—there was an unusual attendance of buyers, and the whole went off with briskness—4491 bags were disposed of at or after the sale, at a reduction of 1 to 1 1/2d per lb from the highest prices of the last sale of similar descriptions, except those of the superior kind; of 3212 Bengala, 6375 were disposed of at about 3-4d per lb above the prices previously expected; the lower qualities were taken in by the proprietors with great confidence, about 10 1/2d; the whole subject to the duty of 1d per lb if taken for home consumption. Tobacco.—The demand for tobacco has not been so extensive as in preceding weeks; the holders avince a greater desire to effect sales. Rice.—There continues to be a good demand for rice, good parcels being scarce. Naval Stores.—Last week 500 barrels American rough turpentine were sold; there were further arrivals yesterday.—Spirits are heavy. In tar, pitch, or resin, there is no variation. Oils.—Lined Oil is a shade lower.—In other descriptions there is no variation in the prices, and scarcely any business doing. Madder, Bark, &c.—By public sale, 40 casks Dutch Madder, 37s to 94s per cwt; 20 casks Quercitron Bark 18s per cwt. Hemp, Flax and Tallow.—The prices of Tallow are higher since our last; there is not, however, so much briskness as towards the close of last week. Flax and Hemp continue in demand.

December 1.

That measure whose propriety and adoption we have so often urged and recommended, has at length taken place.—In the Gazette of last Saturday, there is a proclamation prohibiting all his Majesty's natural born subjects, from serving in the armies or navy of the South American Insurgents, and also in the spirit of strict neutrality, equally prohibiting them from serving against the Insurgents in the armies of the King of Spain. The Duke of Wellington's Sent.—Every arrangement was completed on Friday last, for the purchase of the Earl of Rivers's chateau, and domains, at Strath-Beloiday, near Hartford Bridge in Hampshire. The Duke of Wellington passed four hours in conversation with Lord Rivers, when his Grace was last in England

upon the subject. It was agreed to be given them to appoint two arbitrators, to arrange matters: they came to a decision in the preceding week; when the purchase money was to be two hundred and sixty three thousand pounds. The Duke of Wellington's assent has already been given. For all the late interview, his Grace has pledged his word and honor to abide by the decision of these persons, be it what it might. Lord Rivers began to move out on Saturday last, and this week he will surrender the possession. His grace intends to direct the pulling down the mansion immediately; in the spring the outline for the new pile will be determined upon. Statheladay is in a very healthy situation, and upon a dry gravelly soil.

HOUSE OF INDUSTRY.

Notice is given to persons desirous of obtaining work from the House of Industry, that application will have to be made by those residing between the east side of Fairfax street and the river, to John Harper; those residing between the west side of Fairfax and the east of Pitt street, to Charles Page—for the First Ward.

Staves per M w o pipe 2s 28; hhd 19 a 23; bbl 10s 15s; r o hhd 10 a 10 1/2 lb. London, Tuesday, Dec. 2. Cotton.—The sale at the India House attracted great attention—there was an unusual attendance of buyers, and the whole went off with briskness—4491 bags surats were disposed of at or after the sale, at a reduction of 1 to 1 1/2d per lb from the highest prices of the last sale of similar descriptions, except those of the superior kind; of 5812 bengals, 5375 were disposed of at about 3-4d per lb above the prices previously expected; the lower qualities were taken in by the proprietors with great confidence, about 10 1-2d; the whole subject to the duty of 1d per lb if taken for home consumption. Tobacco.—The demand for tobacco has not been so extensive as in preceding weeks; the holders evince a greater desire to effect sales. Rice.—There continues to be a good demand for rice, good parcels being scarce. Naval Stores.—Last week 500 barrels American rough turpentine were sold; there were further arrivals yesterday. Spirits are heavy. In tar, pitch, or resin, there is no variation. Oils.—Lined Oil is a shade lower. In other descriptions there is no variation in the prices, and scarcely any business doing. Madder, Bark, &c.—By public sale, 40 casks Dutch Madder, 87s to 94s per cwt; 20 casks Quercitron Bark 18s per cwt. Hemp, Flax and Tallow.—The prices of Tallow are higher since our last; there is not, however, so much briskness as towards the close of last week. Flax and Hemp continue in demand. December 1. That measure whose propriety and adoption we have so often urged, and recommended, has at length taken place. In the Gazette of last Saturday, there is a proclamation prohibiting all his Majesty's natural born subjects, from serving in the armies or navy of the South American Insurgents, and also in the spirit of strict neutrality, equally prohibiting them from serving against the Insurgents in the armies of the King of Spain. The Duke of Wellington's Seal.—Every arrangement was completed on Friday last, for the purchase of the Earl of Rivers's chateau, and domains, at Strathfeldsay, near Hartford Bridge in Hampshire. The Duke of Wellington passed four hours in conversation with Lord Rivers, when his Grace was last in England

upon the subject. It was agreed to between them to appoint two arbitrators, to arrange matters: they came to a decision in the preceding week; when the purchase money was to be two hundred and sixty three thousand pounds. The number on the estate is valued at one hundred and fifty thousand pounds. The Duke of Wellington's assent has already been given. For all the late interview, his Grace has pledged his word and honor to abide by the decision of these persons, be it what it might. Lord Rivers began to move out on Saturday last, and this week he will surrender the possession. His Grace intends to direct the pulling down the mansion immediately; in the spring the outline for the new pile will be determined upon. Stathfeldsay is in a very healthy situation, and upon a dry gravelly soil. HOUSE OF INDUSTRY. Notice is given to persons desirous of obtaining work from the House of Industry, that application will have to be made by those residing between the east side of Fairfax street and the river, to John Harper; those residing between the west side of Fairfax and the east of Pitt street, to Charles Page—for the First Ward. Second Ward.—Those residing between the east of Fairfax street to the river, to John Adam; and from the west side of Fairfax to the east of Pitt street, to Bernard Bryan. Third Ward.—Those residing between the west side of Pitt to the east of Columbus street, to Isaac Robbins; from the west of Columbus street to West st. to Anthony Crease. Fourth Ward.—Those residing between the west side of Pitt street to the east of Alfred street, to James Lawason; from the west of Alfred street to West street, to Jonathan Janney. GOOD SOUP can be had every day, except Sunday, at the House of Industry, at the moderate price of four cents per quart. Families are solicited to send for it, particular attention being paid to the cooking.—They will thereby give encouragement to the establishment by their example, and aid the beneficent design of feeding the hungry and clothing the naked. The poor can obtain it by application to the inspectors of the House of Industry. READY MADE CLOTHING, such as shirts, frocks, sheets, trousers, jackets, waistcoats, bags, candle-wick, &c. can be had at the House of Industry, at a moderate price. January 27. Exchange Coffee House. GENTLEMEN.—It appears that many have refused to pay for licenses to use my improvements in the art of manufacturing flour, and in lessening the labor in rice mills, waiting the decision of the United States courts; while many others have paid freely the sums I demanded for my license; there can exist no reason why some should pay and others be exempt. There has already been a sufficient number of decisions establishing the law, that each infringer is liable to pay treble my actual damages, which cannot be rated at less than the value of the use of my property during the infringement. I have expended the greatest part of a long, arduous, and indelible life in study and exertions to invent and introduce into useful operation several important and highly useful improvements, from which great benefits are derived to the users, and I could have put in operation many more equally useful, but was prevented by the unjustifiable opposition, wasting the profits of those in operation, which I had intended to apply to put others in operation which I had discovered; but which now lay dormant to my great mortification and the public injury. I come into the courts claiming remuneration for my time and labor—the great expenses that I have incurred in advertising repeatedly over the United States, and in my agents travelling for many years to make the utility of the improvements known, and to instruct millwrights to make, and millers to use them. The law contemplates that I shall receive ample remuneration, and by it I was encouraged to risk the great expenses. I have repeatedly published that the price of my license for the remainder of the term should be, the full price of the labor and boarding saved by the use of my improvements in one year only, with lawful interest until paid; but to those who infringed my rights, and refused to pay when called on, I would, beginning with the year ending January 22, 1815, count the sum saved in labor and boarding during the last year (equal to the first price) as a new sum becoming due, and running on interest also; and so on, the 22d day of January in each and every year thereafter a new sum saved in labor and boarding becomes due, and runs on interest until license be purchased, demanding the interest only on all these sums, leaving the principal in the hands of the users; which is the least I can receive of them, to meet the expenses which they have compelled me to incur. The above are now the daily terms on which my agents are instructed to grant licenses, and they are instructed to institute suits against all infringers without giving them another call. Those who wish to purchase licenses may apply to John Love, esq. Baltimore, Prince William county, or to Capt. John Moody, Richmond, Va. OLIVER EVANS. Note.—Persons using Mr. Evans' improvements, or parts of them, unpaid for, will be sued if they do not discharge the claim on application. Mr. William H. Alexander has, under my authority from Mr. Evans, been empowered to receive payments and deliver licenses to use his improvements. Payments, therefore, made to him, John Moody, or myself, will always be valid, and save the expense of suit and treble damages to the defendants. JOHN LOVE. January 2. Forty Dollars Reward. Valuable Land for Sale.
THE subscriber wishes to sell two va-
luable Tracts of Land—one situa-
ted in the upper part of Fairfax county,
adjoining the lands of Samuel G. Griffith,
and bounded north by the Potomac river,
containing 700 acres, about one half in
wood; of the cleared land a considerable
proportion is first river bottom, equal
in fertility to any in Virginia; the upland
is well situated for farming and of a good
quality. There is also a mill seat on the
Tract of considerable value. This farm
is worth the attention of any person wish-
ing to engage in the farming business, as
it certainly is not exceeded by any in the
county (perhaps state) as a farm of pro-
fit, and may be had on reasonable terms.
Mr. John Bickler, who resides near the
land, will show it, and Mr. Wm. M. Car-
ty of Loudoun county, or Mr. John W.
Bronaugh of Georgetown, a. c. will make
known the terms. If this Tract is not
disposed of before the 2nd of JANUARY,
it will then be exposed to PUBLIC SALE,
at Wiley's Tavern, on the road leading
from Alexandria to Leesburg.

The other Tract contains 1000 acres,
and is the upper and most valuable part
of the Tract I live on. It is situated ten
miles below Alexandria, and bounded N.
by Accotink creek. This Tract will be
divided to suit purchasers, if found ne-
cessary. Persons wishing to purchase
will apply to the subscriber living at Cedar
Grove, who will show the land and
make known the terms.

Sully for Sale.
THIS estate, situated in the county of
Fairfax, twenty-two miles from
Alexandria, and the same distance from
Georgetown, contains about seven hun-
dred and fifty acres. Little River, Tur-
piko passes through it half a mile from
the dwelling house. The situation is
handsome, and remarkably healthy; the
water is good and abundant. The soil
which was originally excellent, has for
some years past had the advantage of im-
proving husbandry, Plaster of Paris act-
ing with powerful and immediate effect
on all grasses and grains. The fields
present a good surface for cultivation;
and those now untillied, are covered with
red clover. The orchards are very large
and thrifty; the collection of table fruit
is choice and various. The mansion is
spacious and well constructed; the out-
houses are conveniently situated, and
the whole have been lately thoroughly
repaired and painted. The farm house,
which are all nearly new, are expedi-
ent and excellent in their kind.
For a gentleman of leisure this would
be a delightful residence; and a profitable
estate for an active farmer. The title
is indisputable, and perfectly unincum-
bered.
A number of well taught orderly young
men, with good stocks and farming atten-
tion of all kinds, and the crops of the pre-
sent year, if desired, will be at the com-
mand of the purchaser.
Application may be made to the sub-
scriber, living on the premises, next the
post-office at Pleasant Valley, in Fairfax.

ON application to Charles County
Court by petition in writing of
James G. Bateman of Charles County, for
the benefit of the act of assembly for the
relief of sundry insolvent debtors, passed at
November session 1805, and the several
supplements thereto, a schedule of his prop-
erty and a list of his creditors on oath, so far
as he can ascertain them, being annexed to
his petition, and the court being satisfied by
competent testimony that the said James G.
Bateman has resided two years immediately
preceding the time of his application in the
state of Maryland, and being also satisfied
that the said James G. Bateman is in actual
confinement for debt, and the said James
G. Bateman having entered into bond with
sufficient security for his personal appear-
ance in Charles County Court, to answer
such allegations as his creditors may make
against him: It is therefore ordered and ad-

all those who served under the late Gen-
eral Lyman of New-England; all those
who served under the late General, then
Colonel Israel Putnam or Colonel Rufus
Putnam; all those who served under Gen-
eral Lyman and Colonel Israel Putnam
in 1783 and 64 at the siege of Havana,
or that served under any other officer of
the state of New-York; all those who
served under Major Roger, or any other
officer of the state of Jersey; all those
who served under Colonel Daguerre or
any other officer of the state of Maryland;
all officers and soldiers who served in his
Britannic Majesty's troops from England,
Ireland, Scotland and Germany, either
by land or sea in America, any one cam-
paign from 1754 to 1755, are all entitled
to a valuable bounty of Crown Lands, by
virtue of the king's proclamation dated
October 7, 1763, which is upon record in
each of the original thirteen United States.
The lands were laid off and patented
in the years 1772-3-4; there were lands
laid off for ten British regiments in the
state of New-York; lands laid off for
Virginia Blues in the state of Virginia,
beginning at the mouth of Little Kanha-

wa and extending down the Ohio below
the mouth of Big Sandy Creek. Lands
for Pennsylvania, and Delaware troops
laid off on Salt Lick and Limestone wa-
ters, now in the state of Kentucky. The
lands for Colonel Burd's troops from Vir-
ginia and some British officers and sol-
diers, laid off on the south side of Ohio,
extending down said river below the falls.
The lands of the New-England troops
were laid off by General Lyman and Gen-
eral Putnam upon the Mississippi, and
consist of near three millions of acres.
All those who served under General H.
Buckwait, as volunteers from Pennsylvania,
Maryland and Virginia, in the years
1763 and 1764, against the Indians, and
marched to White Woman's Creek on
Muskingum, are also entitled to a valua-
ble bounty of lands by virtue of the said
Buckwait's proclamation, which is also
upon record. The lands were laid off by
the said Henry Buckwait's orders, upon
Muskingum and Ohio, and patented. All
officers and soldiers who served in the
revolutionary war, against Great Britain
in any of the United States, for 5 years
or during the war, who have not received
their land or pay or depreciation of pay
from the different states, and who can
prove their services either by commission,
discharge or living witness; all volun-
teers who fought under General George
R. Clark, then of Kentucky, in 1780-81-
82; are entitled to a valuable bounty of
lands by an act of the legislature of Vir-
ginia called the Illinois Grant; all those
who fought under General Harmond, Gen-
eral St. Clair or General Wayne, against
the Indians for three years, are entitled
to a valuable bounty of lands by an act
of congress. All those may apply to the
following gentlemen any time before the

Valuable Family Medicines.
JUST received, direct from the pro-
prietors, the following valuable
MEDICINES, all of which have been in
use for a number of years past, in almost
every part of the United States; have
been highly patronized by people of the
first respectability; and approved by
those who have had occasion to make use
of them, for the cure of those disorders
for which they are severally calculated.
**Dr. Lee's Genuine (Windham) Bi-
lious Pills.**
Universally known and used through-
out the United States as a family me-
dicine. The fame of these pills has become
so great, that many have attempted to
counterfeit them—to guard against this,
the proprietors have procured a stereo-
type label, and each box of Genuine
Lee's Pills will hereafter be enclosed in
one of these labels, with these words on
the sides: "Lee's Genuine Windham
Bilious Pills," and on the end of the la-

bel the words, "Samuel Lee, patentee,
&c. I. Thompson, agent, joint proprie-
tor," &c. and should any be offered for
sale without said label on them, the pur-
chaser may be apprised that they are
counterfeit.
Dr. Thompson's celebrated Eye Water.
For the cure of inflamed and sore eyes
of almost every description. This valua-
ble preparation comes highly recommend-
ed from the most respectable sources.—
Price 50 and 25 cents a bottle.
Dr. Harrison's Genuine Itch Ointment.
A certain and safe cure for that dis-
agreeable complaint, as well as other ir-
ruptions of the skin. Price 37 1/2 cents a
box.
**Dr. Harrison's Anti-Bilious and Sto-
machic Bitters.**
For weakly and infirm constitutions.
Price 57 1/2 cents a box.
**Hinckley's Infallible Remedy for the
Piles.**
A most valuable medicine. Price 50
cents a box.
Thompson's Aromatic Tooth Paste.
For whitening and preserving the
teeth—it may be used with the greatest
safety. Price 50 cents a box.
Specific Drops for the Tooth Ache.
Which, in almost every case, gives in-
stant relief in that distressing complaint.
Price 37 1/2 cents a bottle.
**Cooley's Vegetable Elixir for Coughs,
Asthmas, Consumptions, &c.**
A very valuable medicine in those
complaints. Price 50 cents a bottle.
For sale, in Alexandria, by Dr. R. H. H.
Little, in Washington City, by Dr.
David Ott; in Georgetown, by Dr. John
Oth, Ohio M. Linthum & Co. and Ja-
shanuel Jewett.

**James Kennedy & Son,
BOOKSELLERS.**
KING-STREET, ALEXANDRIA.
RESPECTFULLY inform the public
that they have just received from
Lee's Medicine Store,
No. 46, Maiden lane, New-York, a fresh
supply of the following valuable MEDI-
CINES:
**Hamilton's Worm-destroying Lozen-
ges.**
Which have within sixteen years past
cured an immense number of persons of
both sexes of every age and in every
situation, of various dangerous complaints
arising from WORMS, and from obstruc-
tions or foulness in the stomach and bow-
els.
This medicine bears no analogy what-
ever to others of similar titles so com-
monly complained of as operating with
violence; on the contrary a particular
excellence of this remedy is its being
suited to every age and constitution. It
contains nothing but what is perfectly in-
nocent & is so mild in its operation that it
cannot injure the most delicate pregnant
lady or the tenderest infant of a week old
should no worms exist in the body; but
will without pain or griping cleanse the
stomach and bowels of whatever is foul
or offensive, and thereby prevent the pro-
duction of worms and many fatal dis-
orders. The lozenges are particularly
efficacious in carrying off all gross hu-
mours and eruptions, feverish and bilious
complaints, and are the safest and mild-
est purgative that can be used on any
occasion.
**Description of Worms, and the sym-
ptoms by which they are known.**
Worms as which infest the human body
are chiefly of four kinds viz.—The Ter-
res or large round worm; the Ascari-
des or small mag-worm; the Cucurbi-
tina or short flat white worm; and
lastly, the Tinea or tape-worm, so called
from its resemblance to tape. This is
often many yards long and is full of
joints. It is most hurtful and most diffi-
cult to remove.
Among the symptoms attending worms
are—disagreeable breath, especially in
the morning; bad and corrupted gums;
itching in the nose, and about the seat;
convulsions, epileptic fits, and sometimes
privation of speech; starting and grind-
ing of the teeth in sleep; irregular ap-
petite, sometimes loathing food and some-
times voracious; purging with slimy and
fœtid stools; vomiting; large and hard
belly; pains and sickness at the stom-
ach; pains in the head and thighs and
lowness of spirits; slow fever with small
and irregular pulse; a dry cough; exco-
rative throat sometimes pale and unhealthy
countenance, and sometimes the face bloat-
ed and flushed.
Persons afflicted with any of the above
symptoms should have immediate re-
course to Hamilton's Worm Destroying
Lozenges, which have been constantly
attended with success in all complaints
similar to those above described.
A dose of this medicine given occa-
sionally during the warm season, will ef-
fectually prevent "the vomiting and pur-
ging of children"—a dreadful disorder,
which annually destroys thousands of the
infant part of our citizens. It is likewise
the mildest and most certain remedy
known, and has restored to health and
strength a great number when in an ad-
vanced stage of this fatal complaint. Par-
ticular and plain instructions are given
for every part of the necessary treatment
in such cases.
Children generally take this medicine
with eagerness; having a pleasing appear-
ance, and an agreeable taste.
**The Restorative Powder for the
Teeth and Gums.**

Hamilton's Elixir.
A sovereign remedy for colds, ede-
mate coughs, asthmas, sore throats, ca-
tarhs, and approaching consumptions.—
To persons who have children afflicted
with the HOOPING COUGH, this dis-
covery is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.

application, may be used with perfect
safety by pregnant women, or on infants
a week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with that
tormenting smart which attends the ap-
plication of other remedies.

**Hahn's true & genuine German Corn
Plaster.**
An infallible remedy for corns, speedily
removing them root and branch, with-
out giving any pain.
The Genuine Persian Lotion.
So celebrated among the fashionable
throughout Europe, is an invaluable cos-
metic, perfectly innocent and safe, free
from corrosive and repellent minerals,
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimples,
inflammatory redness, scurfs, tetter, ring-
worms, sunburns, prickly heat, &c.

For the prevention and cure of
BILIOUS and MALIGNANT FEVERS
is recommended
HAHN'S ANTI-BILIOUS PILLS
THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings in several parts
of the West Indies and in the Southern
and Middle States, &c.
The testimony of a number of persons
can be adduced, who have reason to be-
lieve that a timely use of this salutary re-
medy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.
Facts of this conclusive nature speak
more in favour of a medicine than col-
lims of pompous eulogy founded on
mere assertion.
It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
once in every two weeks during the pre-
valence of epidemic fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
estimated desperate and beyond the power
of common remedies.
The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.
They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold taken on its first
appearance; they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.
They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.
